

# Seed Saving

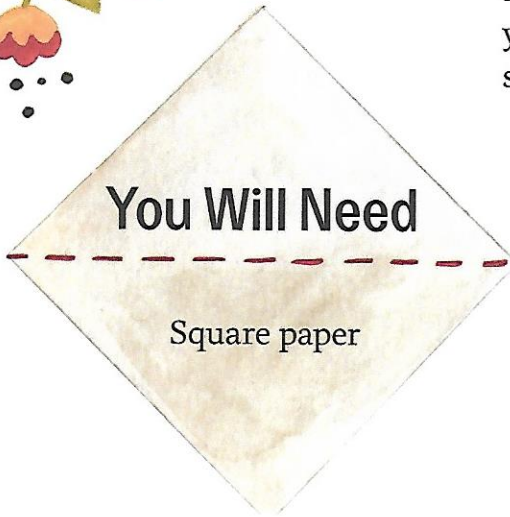

If you save seeds from your plants, you can grow your favorite plants again and again. You can also share your seeds with all of your friends!

## You Will Need

Square paper

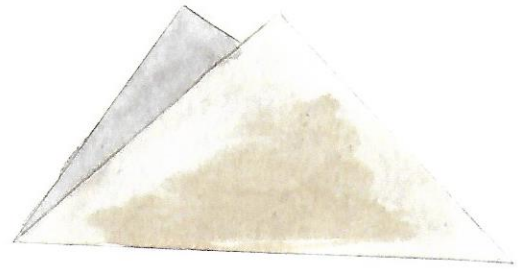

**1**

Place the paper in front of you in a diamond shape.

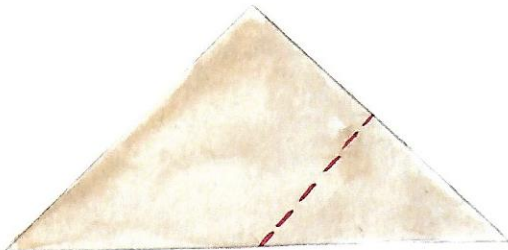

**2**

Fold the bottom half up to meet the top half.

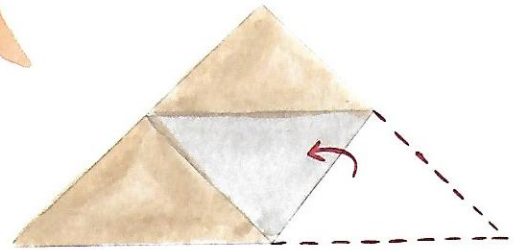

**3**

Take the bottom right corner and fold it up until its top edge is straight.

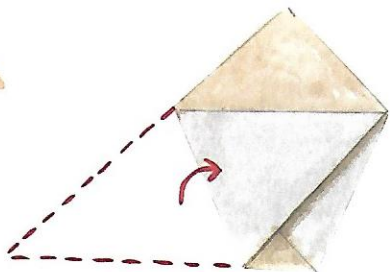

**4**

Make sure it meets the other side of the paper.

**5**

Repeat with the left corner. Both corners should meet at the other side of the paper, with straight top edges.

**6**

Tuck the front layer of the top into the fold from step five.
